

## PREPARATORY DEPARTMENT

Preparatory department - a training unit that provides language and special training for foreign citizens, stateless persons for training in all specialties at the Sumy National Agrarian University and other educational institutions of Ukraine. The term of study is 10 months, the documents are accepted during the academic year until March 1, inclusive.

Language of study – Ukrainian, Russian, English.

The training is conducted in two directions: engineering and biological.

During the year students of the preparatory department study Ukrainian or Russian languages, mathematics, physics, biology, computer science and other disciplines, depending on the chosen field.

The courses are taught at a high professional level. Students are provided with textbooks, educational literature, methodological guidelines and course materials. Educational work with foreigners is also important in the work of the preparatory department. For each group of students, curator are appointed by the teachers of the Department of Foreign Languages, who, in addition to educational work, also carry out educational work, familiarize foreign students with local realities, visit the hostel, maintain communication with their students' parents, facilitate easier adaptation students to stay in Ukraine

Upon successful completion of the preparatory department, students are enrolled to study at the university in all specialties without entrance exams.
